

1. what do I want to learn or understand better?

I want to continue to learn how to use Android studio, I feel like I have got an overall idea about how to use the program but I want to continue to learn more.

2. how can I help someone else, or the entire team, to learn something new?

During this week my team had some good collaborative sessions working on the edit rating fragment and discussing different possible solutions for the detailview for the rating page. This way very helpful for me, and I hope that the rest of the team could learn from it too.

3. what is my contribution towards the team's use of Scrum?

During this week I have continuously communicated with the SCRUM-master and the other teammates to make sure that the work during the sprint was going according to plan.

4. what is my contribution towards the team's deliveries?

During this week I was working with the rating page and made some improvements. Our customer was happy with the result which was good to hear.
