

## W.7 Individual reflection – Eugene

... the current situation or "what is" (A), ... what you want the situation to be or "what might or should be" (B), and ... a plan for getting from where you are to where you want to be or "feedback designed to reduce the gap" (A -> B).

### What do I want to learn or understand better?

This week I worked together with the UX group where I helped them with their user stories and they helped me with mine. I feel confident working with the GUI. I may need to learn more about smaller things such as button placement and constraints and with the help of my friends from UX team, I will easily complete that challenge.

### How can I help someone else, or the entire team, to learn something new?

This week I consulted my teammates with GUI and design choices for our Android app. My goal is to working tightly with the UX team and to guide the team towards success.

### What is my contribution towards the team's use of Scrum?

This week, the group had no problems with Scrum, we knew what we needed to work with, and we completed almost all user stories. For the next week, I'd like to continue cooperating with UX team the same way as this have been this week.

### What is my contribution towards the team's deliveries?

This week I worked together with the UX group where I helped them with the ASM024: Detail view and ASM061: Collections. In discussions with team, I completed the ASM080: Edit rating and ASM089: Delete rating user stories. Next week, I'd like to continue working with the UX team and learn more about our app's user interface so that I can provide value and fulfil user stories on time.
