

1. what do I want to learn or understand better?

During this week I had a small progression in my learning process since I missed out from meetings due to sickness and conflicting schedules. I'm hoping to speed up my learning next week.

2. how can I help someone else, or the entire team, to learn something new?

I want to continue to discuss our work during our collaborative sessions to help myself and others to learn.

3. what is my contribution towards the team's use of Scrum?

During the sprint retrospective I contributed to the team's discussion about the progress of our work.

4. what is my contribution towards the team's deliveries?

During this week my contribution to the team's deliveries was poor due to sickness and work with the Bachelor's thesis. I aim to improve this situation in the next sprint.
