

Week 1 individual reflection Oscar Palmqvist

1. What do I want to learn or understand better?

I want to get a better feel for how working with scrum is actually like.

2. How can I help someone else, or the entire team, to learn something new?

At this early stage i think just communicating openly with the team will be the best help. not judging anyone based on prior knowledge, as we are from different programs and have different experiences.

3. What is my contribution towards the team's use of Scrum?

At this point, just making sure I am to the best of my ability follow scrum in my work.

4. What is my contribution towards the team's deliveries?

As of now we don't have too much to do, so mostly just to make sure I properly do all tasks i am assigned.
